A fun simple shooting experience at its pricetag of only \$2 its worth it especially if you know someone who is afraid of cockroaches but you probably won't play it a lot. My son and wife made a video of it on youtube https://www.youtube.com/watch?v=Ek_Wx7Kx9uk and enjoyed it as well mainly due to my wife's terror of cockroaches.. Exactly what it says on the tin. Cockroack killing in VR is almost as good as actual cockroach killing. Great game. Honestly, the scariest game I've played.. Excellent, had a lot of fun in this short game. But devs please take this game forward and add more to it. So we can come back and play some more.. This is a fun challenge for anyone with a fear of coackroaches. Oh coarse you might not think so the first time you try it.

I screamed a LOT!!! LOL After watching family members have a go at it I decided to give it another shot. Well I got through it but not without a bit of swearing. In the end I felt good at having survived the 2 min challenge. It was fun watching everyone do the same. This is a great little party game to get everyone laughing. At a \$2 price tag you just can't go wrong.
